

A collage of aerospace-related images including an airplane wing, a satellite dish, a person working on a device, and a cockpit view.

# Aerospace

**Leading defense industry companies throughout the United States have already discovered the advantages of establishing businesses within East Central Mississippi:**

**Experienced Workforce.** . . The aerospace industry is supported with an affordable and a readily available skilled labor pool. This includes many existing on-site companies that have already established local terms with technical and aerospace "know how".

**ENGINEERING**

Systems Engineering  
Electrical Engineering  
Software Engineering  
Mechanical Engineering  
Vehicle Integration

**MANUFACTURING**

Systems Integration and Test  
Mechanical Fabrication  
Electronics Fabrication  
Composite Fabrication  
Quality

**Training.** . . As our established technology companies already know, many opportunities for skill set training programs and technology related education programs are available. This includes satellite programs with local colleges and technical schools. This also includes available resources at such universities as Mississippi State University and The University of Mississippi.

**Facilities.** . . Our most recent TechParc addition includes a newly established 40,000 ft<sup>2</sup> *Advanced Programs* aerospace and defense test equipment building. This is in addition to a newly occupied 125,000 ft<sup>2</sup> building complete with aerospace technology capabilities. A variety of building options are available to meet your facility needs.

**Community.** . . East Central Mississippi offers a modern environment that is appealing to a wide variety of individuals. This includes the Pearl River Resort and Casino, Geyser Falls Water Park, Top 50 Ranked World Class Golfing and other outdoor recreational activities.

**Accessibility.** . . Located just to the East of the State Capitol of Jackson and at the heart of the southern U.S. Industrial Belt, East Central Mississippi is where you need to be. Many industrial city centers are within a short flight from the nearby Jackson International Airport, Meridian Regional Airport and Golden Triangle Airport. This is in addition to several local community airports that are equipped to handle corporate jets.
